Objective

To obtain a position working with digital media in an environment utilizing my dedication, technical skills, and ability to work with others.

Technical Qualifications

Platforms: Mac OS X 10.5 (proficient) Windows (in depth)

Software: **Highly Proficient** Adobe After Effects, Illustrator, InDesign, Photoshop
Proficient Encore, Flash, Final Cut, Motion, Maxon Cinema 4D, HTML, CSS
Knowledgeable Audition, Fontlab Studio, RealViz MatchMover, Protools

Hardware: Nikon D70s, Cannon Rebel XT, Panasonic AG-HVX200, Green Screen & Lighting

Skills

Motion design, print design, web design, computer hardware, networking, technical and efficient workflow, assisting others with technical issues and troubleshooting. Proficient with many web technologies such as WHMCS, vBulletin, cPanel/WHM, and tcAdmin.

Experience

Continental Airlines Rebranding

Dec 2008

Created a logo, 15-second spot, and website with a team of four other students. Shot and keyed green screen footage and composited footage into background plates created in Illustrator. Branded products using Photoshop to composite the logo onto various items. Used InDesign to create a multi-page PDF product showcase.

Photographs Music Video

Oct 2008

Created a three-minute music video with a team of three other students in a five week term. Sketched storyboards, rotoscoped footage, and motion tracked graphics. Shot green screen footage with a Panasonic HVX200. Shot outdoor footage with a Panasonic DVX100. Edited footage using Final Cut Pro, and composited graphics with After Effects.

Employment

ClutchKill, LLC. *Co-owner, CTO, Web Designer, Graphic Artist, Marketing*

Oct 2006 – Dec 2008

Designed website, integrated and themed multiple web technologies for grand opening. Maintained servers, billing system, and website, as well as provided technical support via web-based support system.
